Preparing for an INTERACTIVE ACTION PLAN
Welcome to Fountas & Pinnell Classroom™

Congratulations on the journey ahead—a journey that will transform your classroom, your teaching, and the literacy lives of your students. As you prepare to implement a new literacy system, we at Heinemann are honored to partner with you to ensure an efficient and effective plan for Fountas & Pinnell Classroom™ (FPC) in your school/district.

A Vision for Literacy Education

With more than 25 years of literacy leadership, the extensive work of Irene Fountas and Gay Su Pinnell has coalesced into Fountas & Pinnell Classroom™️—a first-of-its-kind, cohesive system for high-quality, classroom-based literacy instruction centered on a powerful principle: what we teach, we value; and what we value, we teach. To that end, Fountas & Pinnell Classroom™️ is built on a set of foundational beliefs and core values (see page 4) that together reflect a transformative vision of what literacy education can be: a shared commitment to meaningful, effective, responsive teaching that ensures the right of every student to lead a literate life.

From Vision to Action

Turning a vision into action requires a carefully laid out plan. You may be asking yourself, “Where do I start?” With a pen in hand, start here, in this action plan, thinking together with colleagues. The 4 steps in this Interactive Action Plan are designed to put you, your students, and your school on the path to literacy success.

Plan Your Literacy Time

p. 26
Defining your values establishes a foundation on which to build your instructional goals and a plan. Envision the ideal design for literacy instruction in your classroom. What are your values and vision for the literacy lives of the students you teach?

**IN STEP 1, YOU WILL HAVE THE OPPORTUNITY TO:**

- Review and reflect on Fountas and Pinnell’s Core Values
- Envision and name the values you have for literacy instruction in your own classroom.
Review Fountas and Pinnell’s Core Values

THE SCHOOLS WE ENVISION recognize every child’s right to grow up literate as a member of a dynamic learning community that values the richness of linguistic, ethnic, and cultural diversity. Members of the school community are treated and treat others with empathy, kindness, and respect. Students are motivated to investigate new ideas that fuel intellectual curiosity and act as powerful agents in their own learning. Because students are fully engaged and feel a sense of joy in their own learning, they achieve a higher level of literacy. Through dynamic literacy education that exemplifies the beliefs and core values described below, students come to understand their physical, social, and emotional world and their roles as informed global citizens—hallmarks of the literate lives they can lead.

FOUNTAS AND PINNELL’S CORE VALUES

Schools are places where students:

1. Act as members of a cohesive learning community that sustains their literacy growth and success.
2. Engage in authentic inquiry within and beyond the classroom walls to ignite their intellectual curiosity and expand their knowledge of the world and of others.
3. Believe in themselves and their own ability to acquire and use language and literacy for learning and enjoyment.
4. Read, think about, talk about, and write about relevant content that engages their hearts and minds every day.
5. Read, think about, talk about, and write about texts that are culturally sensitive, reflect the diversity in our world, and vary in genre, content, and perspective.

Schools are places where literacy educators:

6. Implement a coherent set of evidence-based instructional practices in whole-class, small-group, and individual contexts.
7. Make expert instructional decisions based on evidence gained from systematic observation and ongoing assessment data.
8. Work as a team to take collective responsibility for the high achievement of each student in a widely diverse population.
9. Act as members of a community with a common vision, common goals, common language, and a strong belief that their work can transform children’s lives through literacy.
10. Demonstrate an unwavering commitment to their own professional learning and to supporting the learning of their colleagues and team members.

CONNECTIONS

FPC System Guide
Explore “Our Vision and Core Values” reflected in the photo essay.

Guided Reading, 2nd Ed.
Read chapter 24 “A Design for Language and Literacy Instruction.”
As you reflect on Fountas and Pinnell’s core values, you’ll likely find that you already share some of them, perhaps using one or more to guide the decisions you make as a teacher or school leader. *Fountas & Pinnell Classroom™* is a system through which you can “teach into” all of these core values or mold them into your own. As you begin to implement *FPC*, each instructional context becomes an opportunity for a deeper commitment to and a greater expression of the core values in your classroom.

Defining your values establishes a foundation on which to build your instructional priorities and instructional plan. Envision the ideal design for literacy instruction in your classroom and record your values below.

<table>
<thead>
<tr>
<th>VALUE</th>
<th>VISION</th>
<th>PROFESSIONAL LEARNING TOOLS</th>
</tr>
</thead>
<tbody>
<tr>
<td>What are your values for the literacy lives of the students in your classrooms?</td>
<td>What would you ideally see and hear students doing during literacy time?</td>
<td>What would you and your colleagues need to teach toward that value?</td>
</tr>
</tbody>
</table>
Set Your Goals

Turning a vision into action requires the process of design—a plan (set of goals) for a system that works in a coherent way. Let your core values form the backbone of your decisions, and lead you to set instructional goals that reinforce these values. Reflection provides an opportunity to lean into your practice and self-assess current models in order to set and prioritize instructional goals.

IN STEP 2, YOU WILL HAVE THE OPPORTUNITY TO:

• Self-assess your current literacy instruction
  • Identify and prioritize your implementation and instructional goals.
Use the questions below to reflect on your current literacy instruction and to prompt conversation with colleagues as you set and prioritize goals.

1. What student materials are you currently using for literacy instruction? What instructional resources do teachers use?

2. What is driving the need for a new literacy system?

3. How do you and other stakeholders in the district define success in implementing a new literacy system?

4. What school-wide initiatives need to be considered in prioritizing goals?

5. What instructional contexts (interactive read-aloud, shared reading, phonics/spelling/word study, reading minilessons, guided reading, book clubs, independent reading, etc.) are you/your teachers most comfortable with?

6. What particular topics or instructional contexts do you want to focus on in greater depth?
7. How much instructional time do you have to focus on literacy?

8. How do you currently use observation/assessment to inform your teaching decisions?

9. How familiar are you with The Literacy Continuum? With Fountas and Pinnell’s work in general?

10. Do you have a centralized book room to store shared books/resources? How do you allocate space for shared resources?

11. What is the most recent professional development you/your teachers have had?

12. What infrastructures are currently in place for professional development (PD)? Who delivers the PD? How much time is dedicated to collaboration and professional learning?
## Step 2: Set Your Goals

### 1. Getting Started

### Gaining Momentum

School/district has some coherence among teaching teams and across school district campuses, but needs refinement of understandings and links to outcome data.

- Classroom teachers use a text-based assessment (such as Benchmark Assessment System and running records), but may not be using the data to inform instruction.
- Some teachers use The Literacy Continuum and use it to link assessment data to instruction.
- Teachers do not use a scripted, sequential reading program (no core text) and are utilizing resources/books from various sources.
- Teachers read aloud several times a week using text sets, but not consistently.
- Teachers use shared reading with enlarged texts regularly, but are still growing their expertise in making effective teaching decisions.
- Teachers regularly use whole-group reading minilessons, but not in a systematic way.
- Teachers use guided reading consistently.
- School has a dedicated space for a leveled bookroom, but the collection is of varying quality and needs expansion.
- Teachers meet with children in book clubs, but not consistently.
- Students have regular time (about twice a week) to choose books and read independently.
- Well-organized classroom libraries with a growing number of books.
- Teachers use a systematic phonics, spelling, and vocabulary program and are gaining momentum in linking the instruction to reading and writing.
- Teachers are using modeled, shared, interactive writing, and writing about reading, but not yet in a systematic way.
- Supplements classroom literacy instruction, but is generally not consistent or coherent with classroom instruction.
- Teachers regularly meet (e.g., at least once a month) to collaborate and learn together.

### Expanding Expertise

School/district has a high level of coherence among teaching teams and across school districts, but is constantly expanding their expertise and learning how to use data for improvement.

- Classroom teachers use a text-based assessment (such as Benchmark Assessment System and running records) and consistently use data to inform teaching.
- Teachers use The Literacy Continuum effectively to observe, assess, plan and guide teaching.
- Teachers use a combination of whole-group, small-group and individual learning opportunities—not a scripted, sequential reading program.
- Teachers read aloud daily using books from high-quality text sets.
- Teachers use shared reading with enlarged texts several times a week and revisit them for powerful teaching opportunities.
- Teachers use whole-group reading minilessons, derived from The Literacy Continuum, in a systematic way to connect thinking, talking, reading, and writing.
- Teachers use guided reading systematically using data and The Literacy Continuum to make highly effective teaching decisions.
- School has a well-organized bookroom with high-quality leveled books.
- Teachers meet with children in book clubs once a month.
- Students choose books and read independently every day, conferring with teachers regularly.
- Well-stocked classroom libraries organized in categories (NOT level).
- Teachers teach a systematic phonics, spelling, vocabulary, word study lesson almost daily (out of text) and link the instruction directly to reading and writing (in text).
- Teachers are using modeled, shared, interactive writing, and writing about reading and making connections to literature/content areas.
- Supplements classroom literacy instruction and is consistent and coherent with classroom instruction.
- Teachers meet frequently to collaborate and learn together.

## Self-Assess Your Literacy Instruction and Identify a Pathway

Take a look at the characteristics listed in this chart, organized by instructional contexts on the left, and falling under four general pathways: (1) Getting Started, (2) Moving Forward, (3) Gaining Momentum, and (4) Expanding Expertise. Mark the characteristic within each context row that most clearly describes your current literacy teaching, resources, environment, and capacity.

Where do most of your checkmarks fall? Do the majority of your checkmarks fall within one pathway? Or are they spread across various pathways? If so, you’re not alone! The next few pages will guide you in mapping out an implementation plan and in setting priority goals.
Now that you have identified where you are in your current literacy model and instruction, you can think together with your teaching and leadership team to determine a path forward that will amplify the literacy teaching and learning in your classroom, school, and district. The questions below will help you identify and prioritize next steps.

1. **What areas of your current literacy instruction need reflection, refinement, growth or adaptation?**

2. **What aspect of your current literacy instruction should be prioritized as a focal instructional context? What is your starting point?**

3. **What materials do you need to shift your current model to align with your vision, and extend teaching and learning forward?**
First Year Implementation Goals (Priority)

Now that you and your colleagues have articulated your vision and self-assessed your current literacy model, use that information to set implementation and instructional goals.

What are your goals for literacy teaching and learning next year?

**Example:** Implement a new, cohesive literacy system in every PreK–6 classroom in our school/district. Create a two-year buying plan and implement one instructional context at a time. Start with interactive read-aloud. Build familiarity and comfort with the lesson framework, strengthen instructional decision-making, and meet in bi-weekly professional learning communities (PLCs) to reflect, refine, and learn together. After a month or two, roll out another instructional context of FPC based on student needs and identified goals.

A FIRM FOUNDATION
The Fountas & Pinnell Literacy Continuum—the roadmap for literacy acquisition in children over time—and the F&P Text Level Gradient™ are the foundations of Fountas & Pinnell Classroom™. The specific demands, competencies, and behaviors to teach for, assess, and reinforce (at each grade level and text level) inform and inhabit Fountas & Pinnell Classroom™.
Using the instructional contexts of FPC in a cohesive way, coupled with your high-impact teaching, enables students to grow as thoughtful users of literacy together in a community of learners.

Begin by mapping out a plan. What contexts do you have or plan to implement in year one? What contexts do you plan to add in the future? Do you have the essential teacher tools to start implementing FPC?

Plan Your Literacy Time

Time for literacy is critical, but finding time to fit it all in can be a challenge. Thoughtful and intentional planning is needed to ensure efficient, engaging, and effective literacy opportunities in your classroom. As you plan your day and your year, consider the length of your instructional time for literacy. This will help you to prioritize instructional goals and actions.

**IN STEP 4, YOU WILL HAVE THE OPPORTUNITY TO:**
- Create a daily literacy schedule
- Plan a week (or weeks) in your *Fountas & Pinnell Classroom™* using examples to get you started.
Create a Daily Literacy Schedule

All of the instructional contexts of FPC fit together in a coherent way and offer students multiple opportunities to access complex, age-appropriate texts; and engage in powerful small-group, whole-group, and independent reading that propels their learning. Below is one sample schedule for the literacy time in a grade one classroom. Start with this suggested framework (from the FPC grade one sampler), or design your own.

<table>
<thead>
<tr>
<th>INSTRUCTIONAL CONTEXT</th>
<th>ACTIVITY OPTIONS</th>
<th>MINUTES EACH DAY</th>
</tr>

<tr>
<td>GROUP MEETING</td>
<td>• Bring the classroom community together to introduce/discuss the day and set goals.</td>
<td>5</td>
</tr>
<tr>
<td>INTERACTIVE READ-ALOUD</td>
<td>• Teacher reads aloud a book from a text set and children share their thinking. The text experience often leads to writing about reading in the Reader’s Notebook.</td>
<td>15</td>
</tr>
<tr>
<td>SHARED READING</td>
<td>• Teacher engages children in shared reading using enlarged print books and shared poetry charts and often leads to shared/interactive writing.</td>
<td>10</td>
</tr>
<tr>
<td>PHONICS, SPELLING, AND WORD STUDY LESSON</td>
<td>• Teacher provides an explicit, inquiry-based lesson on a phonics principle that children can apply to reading and writing.</td>

<tr>
<td>READING MINILESSON</td>
<td>• Teacher provides an explicit minilesson for children to apply to their independent reading and writing about reading/drawing.</td>

<tr>
<td>SMALL-GROUP INSTRUCTION</td>
<td>• Teacher meets with 3 Guided Reading groups each day.</td>
<td>25</td>
</tr>
<tr>

<tr>
<td>INDEPENDENT LITERACY WORK</td>

Plan a Week (or Weeks) of Literacy Instruction

The first eight weeks of school is a critical and important time—time to get to know your students, introduce the classroom learning spaces, establish routines and expectations, and plan priority instructional actions. Collaborate with your team to plan what a week in FPC would look like in your school. Use the Weekly Planning templates on the following pages to map out literacy learning across the instructional contexts of FPC. (A similar, downloadable, “Weekly Lesson Plan” is available for FPC users in the Online Resources.)

Consider the following questions before you plan your week:

1. **What instructional contexts will you start with?**

2. **How much time each day/week do you have for each context?**

**HELPFUL TIPS**

Here are some ideas for creating a schedule:

- Use stick-on notes, cards, or print the FPC instructional context tile stickers from fountasandpinnell.com to create blocks of instructional time and move them around, accounting for lunch and other daily specials, until you have an effective literacy schedule.

- Establish consistent routines that you will use frequently with students. Children find comfort in predictable learning schedules.

- Meet with colleagues to brainstorm schedules.
